HP EliteBook 8760w Mobile Workstation

Power to Perform

HP's most powerful mobile workstation offers high performing professional graphics, extreme processing power, a 43,9 cm (17.3") diagonal display and a chiseled design that radiates performance.

HP recommends Windows® 7.

New chiseled design
From a precision-stamped chassis to the radial-brushed display cover, every aspect of the HP EliteBook 8760w radiates performance. The 8760w is designed to meet tough military standards (MIL-STD 810G) for drop, vibration, dust, altitude and high temperature[1], which translates into true business ruggedness.

Outstanding workstation-class graphics and performance
Maximize onscreen performance with AMD or NVIDIA professional graphics solutions that are tested and certified to reliably run the most demanding professional applications. Run more tasks, processes and applications simultaneously with 2nd generation Intel® Core™ i7[2] and i5[2] processors and support for up to four SODIMMS for a total of 32 GB of memory[3]. Plus, HP Performance Advisor delivers a simple, effective, software wizard that takes you from initial configuration and customization through optimizing your system for each new application and driver you install.

Consistent, accurate color
The HP DreamColor display provides unprecedented color fidelity and accuracy in a mobile display. HP DreamColor displays provide wide viewing angles, high contrast ratios and 64 times the color supported on traditional notebook displays making it a great choice for users who require accurate, consistent color from concept to production.

Expand your view
AMD Eyefinity Technology allows users to run up to 5 independent displays or group displays together to form a large viewing surface for the ultimate computing experience[4].

Built to simplify
SRS Premium Sound delivers an audio experience for users listening to media rich content, presenting multimedia heavy presentations or digital content creators listening to audio or surround sound the way it was meant to be heard.

Built to protect
HP ProtectTools is a portfolio of security technologies that's easy to use, robust and can be centrally managed by businesses of all sizes across HP and non-HP client PCs.

Everybody On

Security	HP ProtectTools Security Manager; Central Management capable; HP Fingerprint Sensor; Integrated Smart Card Reader; Enhanced Pre-Boot Security (Multiuser / Multifactor); HP SpareKey; One-Step Logon; TPM 1.2 Embedded Security Chip; HP Disk Sanitizer; Security lock slot; Security screw for bottom access door; Support for Intel AT
Dimensions	41.65 x 27.27 x 3.74 cm
Weight	Starting at 3.47 kg; Starting weight is with SSD and weight saver
Energy efficiency compliance	ENERGY STAR® qualified configurations available
Power	8-cell (83 WHr) Li-Ion battery; HP Long Life 8-cell (75 WHr) Li-Ion battery; 230W Slim AC adapter; 200W Smart AC adapter
Warranty	3 years carry-in (pick-up and return in some countries (upgrades available, sold separately)) 1 year warranty on primary battery, 3-year limited warranty on HP Long Life Battery (only available with 3-year platform warranty).

1 MIL-STD-810G testing was not intended to demonstrate fitness for U.S. Department of Defense contracts or for military use

2 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Quad Core is designed to improve performance of multithreaded software products and hardware-aware multitasking operating systems and may require appropriate operating system software for full benefit. Not all customers or software applications will necessarily benefit from use of this technology. Intel's numbering is not a measurement of higher performance

3 Four SODIMMS for a total of 32 GB of memory is available on quad-core systems only

4 Support for 5 monitors requires separately purchased HP Advance Docking Station

Accessories and Services

HP Deluxe 4 Wheel Roller Case

The HP Deluxe 4 Wheel Roller is a durable nylon case designed to carry everything you need for an overnight trip. An outer compartment features divided sections to store important files and business essentials. The case's main compartment includes padded pockets that can hold a laptop up to 17.3-inches (43.93 cm) in size, plus additional cables and cords. The third, over-sized compartment provides plenty of room for a change of clothes, shoes and personal toiletries. A retractable handle locks in two convenient heights. The four wheels swivel and can to rotate 360 degrees to enhance maneuverability, and allow the bag to be transported in a leaning or upright position.

Product number: XW576AA

HP 230W Advanced Docking Station

Robust desktop replacement solution for your mobile office with advanced features for future expansion.

Product number: NZ223AA

HP Display and Notebook Stand

The perfect home base for the business traveler who is constantly on the go - turn your HP Business Notebook into a desktop solution supporting up to two displays (notebook display plus external display). The adaptable design of the HP Adjustable Display Stand can accommodate a range of notebook sizes with the innovative adjustable shelf. This stand can also accommodate notebooks that can be connected to a docking station and notebooks that do not have a docking connector. Integrated base rollers let you rotate the stand so you can more easily share your work. A dual-hinged, smooth-motion display stand allows for greater depth, height and tilt adjustment for maximum comfort.

Product number: AW662AA

HP Notebook Projection Companion

Designed for use in smaller settings where a handful of people are present, the HP Notebook Projection Companion is ideal for highly mobile users. Compatible with HP Business and Consumer Notebook PCs and other notebooks with a VGA connection, this ultra-portable accessory is powerful and durable enough to serve as your primary projector or as a backup while on the road. DLP technology gives your presentations sharp images, crisp text and vibrant colors. Weighing less than a pound (0.9 lb/0.42 kg) and measuring just 3.6 x 1.6 x 4.4 inches (9.3 x 4.0 x 11.1 cm), this remarkably compact projector fits easily inside your notebook carrying case.

Product number: AX325AA

HP Docking Station Cable Lock

The HP Docking Station Cable Lock is dramatically simpler to use than previous locks and delivers enhanced security. The HP Docking Station Cable Lock gives you two locking options: lock the docking station only (which also prevents access to the advanced docking stations drive bay) or lock both the docking station and the notebook.

Product number: AU656AA

3-year Next Business Day Onsite

Care Pack

Receive 3 years of next business day onsite repair from an HP-qualified technician for your computing device, if the issue cannot be solved remotely
